Product description

About Tantra

About the brand

Tantra is brand of Terrace Pharmaceuticals manufactured in India & which is marketed globally by the company.

About the drug

Active ingredient in Tantra is Sildenafil. Tantra is used primarily for Erectile dysfunction. It helps in relaxing the veins and arteries in penis region leading to perfect erection before sexual activity. It is Phosphodiesterase type 5 inhibitor. It is drug of choice for impotency in men which results into perfect erection.

US Brands Equivalent to Tantra

VIAGRA is US brand equivalent to Tantra

Use of Tantra having salt Sildenafil

It is primarily used for use in

1. **Erectile dysfunction:** It is a medical condition, in which, proper erection of penis is a problem. Men are not able to erect their penis even during sexual stimulation. This leads to impotency. Tantra helps to improve erectile dysfunction and helps to increase the satisfaction level during sexual intercourse.
2. **Pulmonary arterial Hypertention:** It is a condition in which arteries in the lungs gets narrowed and makes it difficult for proper exchange of gases between air inhaled and the blood. Tantra having Sildenafil as salt helps to lower the hypertension in case of pulmonary arterial hypertension.

How Tantra works (Salt name: Sildenafil)

Tantra having Sildenafil works by inhibiting the phosphodiesterase type 5 in the body. Thus it stops the degradation of cGMP(CyclicGuanosine monophosphate). Availability of cGMP helps relax the veins in Penis region and thus helps in erection when there is need for sexual activity or sexual stimulation.

Manufacturer of Tantra

Tantra having 5 g of Sildenafil is manufactured primarily by Terrace pharmaceuticals in India. It is mainly marketed and supplied by the company and its associates.
